

CAPABILITY STATEMENT

EXECUTIVE SUMMARY

JIRACOR delivers mission-focused engineering, integration, modernization, logistics, manufacturing, and sustainment solutions that enhance readiness and extend the operational life of defense systems.

Our capabilities span Training Systems & Simulation, Lifecycle Logistics & Sustainment, Technical Refresh & Modernization, Systems Integration & Manufacturing, and Program Management & Engineering Services.

Supporting the U.S. Department of War, Foreign Military Sales (FMS), Direct Commercial Sales (DCS), and defense industry partners, JIRACOR combines engineering expertise, disciplined program execution, quality-driven manufacturing, and lifecycle support to modernize and sustain critical defense systems. Our integrated approach helps customers address obsolescence, extend system service life, reduce program risk, and maintain mission readiness.

DIFFERENTIATORS

- ▶ **Quality Management System:** ISO 9001:2015 & AS9100D Certified
- ▶ **Financial Accountability:** DCAA-approved accounting system.
- ▶ **Security:** SECRET Facility Clearance (FCL).
- ▶ **Export Compliance:** ITAR registered, supporting compliant handling of export-controlled defense articles and technical data.

NAICS

- ▶ 333310 Commercial and Service Industry Machinery Manufacturing
- ▶ 334111 Electronic Computer Manufacturing
- ▶ 334118 Computer Terminal and Other Computer Peripheral Equipment Manufacturing
- ▶ 541512 Computer Systems Design Services
- ▶ 541330 Engineering Services
- ▶ 541611 Administrative Management and General Management Consulting Services

PSC

- ▶ R425 Support- Professional: Engineering/Technical
- ▶ R499 Support- Professional: Other
- ▶ R799 Support – Management: Other
- ▶ 6910 Training Aids
- ▶ J069 Maintenance/Repair/Rebuild of Equipment – Training Aids and Devices

CERTIFICATIONS

CORE COMPETENCIES

▶ Training Systems & Simulation

JIRACOR designs, integrates, modernizes, and sustains training systems and simulation solutions that enhance readiness and training effectiveness.

▶ Technical Refresh & Modernization

JIRACOR modernizes fielded training systems through technology insertion, hardware and software upgrades, COTS integration, and obsolescence mitigation.

▶ Lifecycle Logistics & Sustainment

JIRACOR provides spares, logistics, supply support, maintenance planning, and lifecycle sustainment to improve readiness and system availability.

▶ Systems Integration & Manufacturing

JIRACOR provides systems integration, cable and harness manufacturing, electronics assembly, equipment rack builds, testing, and build-to-print production.

▶ Program Management & Engineering Services

JIRACOR provides program management, Reliability & Maintainability (R&M) engineering, Reliability-Centered Maintenance (RCM), system safety, logistics, Systems Engineering and Technical Assistance (SETA), lifecycle analysis, and professional support for defense programs.
